## RECURVE AND COMPOUND

Any bow that uses pullies or cams is deemed a compound. Note that while the three governing bodies for the three different events have slightly different requirements or restrictions-for the sake of simplification- the National 4-H Shooting Sports Invitational uses one standard for equipment – for *all events*. No open powder containers are permitted on the firing line except when powder is actually being measured. Any open container will become the property of the range officer. A separate powder measure must be used to carry the powder from the container to the muzzle of the gun. No rifle may be capped or primed until on the firing line and the command to fire has been given by the range officer. No wooden ram rods are permitted on the firing line to load or clean guns.

**Course of Fire:** 20 shots on the International Air Pistol target. The course consists of 4 series each of 5 shots. During each series the shooter fires one shot at a time, each shot is fired within the time period of 3 seconds.

The sequence of commands will begin with the LOAD command of **20** seconds during which the shooter will charge the pistol with one pellet and prepare it to fire.

At the end of the 20 second LOAD period, the next command will be ATTENTION command during which the shooter will raise the pistol to no less than 45 degrees from the horizontal. The shooter will remain at the Ready Position for a 7-second pause before the command to fire. The shooter will raise the pistol to the target and one shot will be fired during a 3 second time limit. ## 5. POSITIONS

5.3 Ready Position – (note: see the representation of the ready position in this section of the NRA rule book)

- (a) The shooter must stand free, without support, completely within the firing point. The pistol must be held and fired with one hand only. The wrist must be visibly free of support.
- (b) Before and during the series, including while chambering a pellet, or checking or cocking a pistol, the pistol must always be kept pointing down range and within the target backstop area before returning to the READY position for the next shot, or while awaiting the command to LOAD.
- (c) In this Duel Fire Event shooting must start from the "READY" position. In the "READY" position, the shooter's arm must point downward at an angle of not greater than 45 degrees from the vertical, but must not be pointed at the ground within the forward edge of the firing point. The arm must be stationary in this position while waiting for the appearance of the target (see Fig. 4) or, when electronic scoring targets are used, for the green lights to come on; or on voice command.
- (d) During the series of shots- The pistol must not be rested on the bench or shooting table, except to load each single pellet. If the shooter raises his arm too soon, or does not lower it sufficiently he must be warned by a Jury Member, and the shot must be recorded and repeated. In other words, the offending shooter will fire a 5<sup>th</sup> shot. The shooter must then be credited with the five (5) lowest value hits in the series.

If the fault is repeated in the same stage of five (5) shots in the Duel Fire Pistol Event, the same procedure must be applied and the shooter must be penalized. By a deduction of two (2) points from his score. If a third infraction of this rule occurs the shooter must be disqualified.

5.1 to 5.11 Blank

5.12 Firing Position - The shooter must stand free, without support, completely within the firing point. The complete firearm must be held and fired with one hand only. The wrist must be visibly free of support. Bracelets, wrist watches, wrist bands or similar items which might provide support are prohibited on the hand and arm which hold the firearm. (See Rule 3.11)

<b>SHOOT-OFFS</b>	Five targets each from stations 1 and 5 from the 21 yard line.
-------------------	--

**NJ 4-H Event Permission Form & Adult Supervision** - It is the responsibility of each participant to have the appropriate state health consent and release forms for each participant. An adult supervisor or coach should be present at the event site, with immediate access to the forms anytime their youth are participating in an event.

**Safety** – Safety is the highest priority for range staff, participants, coaches, and spectators. While standard accepted safety rules will be followed at all times, special safety considerations will be announced at each venue. The Match Director, Range Officers, or other event staff may dismiss anyone from the range for unsafe behavior resulting in the participant's score being forfeited, and/or the participant being disqualified. Spectators not following safety rules may be barred from the event at the discretion of the NJ4-HSSAC.

**Cell Phones** – The use of cell phones or other electronic communication devices is not permitted during competition by participants or coaches and must be turned off and unavailable.

**Eye and Ear Protection Requirement** – For all firearm events, eye and ear protection is required. All participants and other persons on or in the immediate vicinity of the firing line, including coaches, range officials and any spectators must wear adequate eye protection (glasses or goggles) and ear protection. The equipment must protect both eyes. For air events, only eye protection is required; and eye protection is strongly recommended but not required for archery events.

### **RANGE PROTCALS**

**Note: In this section, "firearm" is broadly defined to include all rifles, pistols, shotguns, and muzzle loading arms regardless of type or action, including air guns. Range safety protocols will be strictly and vigorously enforced.**

1. Firearms will be the last piece of equipment brought to the range by the competitors and the first piece of equipment to be removed from the range/shooting line at the end of each event. When moving among positions, e.g. to different firing points in silhouette, the action must be open, ECI or CBI in place, and the muzzle pointed in a safe direction. In shotgun events, a visibly open action is sufficient.
2. All firearms will remain cased until the competitor prepares to take the range for their relay and the range officer has declared the range ready. ECIs or CBIs will be in place until the shooter is on the firing line and will be replaced in the action prior to leaving the firing line. This does not apply to shotguns where the open actions permit visual observation by range staff.
3. No competitor shall rest the muzzle(s) of a shotgun or any other firearm on a shoe, toe pad or similar device such that the muzzle points at any part of an individual's body.
4. Deliberate shooting or attempting to shoot any living animal while on competitive ranges is grounds for ejection from the event or from the match.

### **REASONABLE ACCOMODATIONS**

**Participants with Physical Disabilities** – A participant who because of physical disability cannot fire from one or more of the prescribed shooting positions outlined in these rules, or who must use special equipment when firing, may petition for permission to assume a special position or to use modified equipment or both. This petition will be in the form of a written request from the individual participant to the Committee (match director) outlining in detail the reasons why the special position must be assumed or the special equipment must be used. The petition will be accompanied by pictures of the participant in the position desiring approval and, if special equipment is required; the picture will show how this equipment is used. The petition and all pictures must be furnished in exact duplicate. The petition must be accompanied by a medical doctor's

statement if the physical disability is not completely evident in the pictures submitted. Only a qualified individual with a disability is eligible for reasonable accommodation. An individual with a disability, for purposes of reasonable accommodation, is defined as a person who has a physical impairment that substantially limits one or more of the major life activities.

### **Filing a Petition for Accommodations:**

Each petition will be reviewed by the NJ4-HSSAC. The Council may require additional or supplementary statements or pictures. After review, the Match Director will be instructed by the council to issue special authorization to individuals who submit petitions with pictures which have been approved. Such certificates will have necessary pictures attached.

(b) Participants who have received special certificates of accommodations will be required to carry them when competing and to present the certificate when requested by officials of the match. In the case of a protest by another competitor, involving the position or the equipment used by such a participant, the range officials will be able to compare the questioned position or equipment with the certificate and photographs presented by the participant. Holders of current NRA authorizations (special certificates of accommodations) will be honored as valid authorizations, but the Match Director must be informed at the earliest date possible and no later than at the time of entry.

### **SCORING PROCEDURES & AWARDS**

**Awards** - Awards will be presented to at least the top 3 individuals for each competitive event. Awards will be presented at the NJ4HSSAC Banquet, May 2018. There are no awards for the different match events. A final overall individual award will be presented for each match based on the outcome of each match component. See below for how our match will be scored.

**Scoring** - NJ 4-H Shooting will be following the scoring guidelines of raw scores and percentage points directly from the National Championships.

Because of the desire for each event and discipline to have equal standing in determining “overall” awards, various methods of scoring have been used. Whether raw scores and percentage points are used in determining awards at the 4-H Shooting Sports National Championships ...none is perfect. This is because of three different shooting events for each team category; each with varying degrees of difficulty, different scoring opportunities within each event (0 or 1 for silhouette vs. 5,6,7,8,9 or 10 on bullseye targets), and varying raw score potential (i.e. 300 points for smallbore 3P compared to 20 points for silhouette, and large differences in participation numbers).

Overall Individual Awards - are determined by percentage points (%) score in all 3 events, not by cumulative raw scores.

#### **Percentage Points (%)**

Percentage scoring can help equalize the point differences between events. For example: a raw score potential of 20 in smallbore silhouettes compared to 300 points in 3P.

Example: Air Pistol -slow fire bullseye (200 pts.).

	<u>Raw Score</u>	<u>%</u>	<u>Mod %</u>
Competitor A 1 <sup>st</sup>	376 pts.	.9400	1.000
Competitor B 2 <sup>nd</sup>	360 pts.	.9000	.9574
Competitor C 3 <sup>rd</sup>	359 pts.	.8975	.9548

A modified % will be used. Using the highest score recorded for a particular event as the baseline rather than the “perfect” score helps in equalizing the various difficulties of different daily events.

Modified % Formula:  $\frac{\text{Individual Score}}{\text{Highest Score}} = \% \text{ score}$

## COACHING

**Coaches** – Each County shall select coaches to assist individuals. There is no limit to the number of coaches per county (recommendation: 1 coach per 4 shooters). This coach is the only adult permitted to discuss procedures, ask questions, or advocate for his/her group with range officials. This coach should be designated on the entry form and approved by the 4H Club Leader.

As a general rule, limited coaching at the event site is permitted. However, coaching must never disturb other participants. Each county is limited to 1 “coach” per 4 individuals. A coaching line will be established on each range - behind the participant’s area and firing line and separate from the spectator area. Except during preparation time, coaches are to stay behind the firing line and in the coaching area. Coaches may assist the participant during prep time only. Once shooting for record begins, no coaching is permitted unless the participant asks permission from the range officer. Any request for coach assistance must be initiated by the participant; the coach may not initiate contact with the participant. The participant will put down their equipment, make it safe, leave the line, and then go talk to their coach. Coaches may ask the line officer to have their youth member come back to talk, but may not initiate contact with the participant. Coaches may not handle firearms or equipment after the match begins nor advance to the firing line unless authorized by the range officer. A coach may set up his/her own spotting equipment. Please note that specific coaching instructions may be issued at the range for each event.

**Spotters/Scorers in silhouette matches** - Individuals will be split into multiple shooting relays and participants from their respective county will spot for one another (2 per relay). Quiet conversation between the spotter and the participant is permissible. An official scorer, not from the same county, will be assigned to each participant to record hits and misses.

## CONDUCT

**4-H Image and Honor** – NJ 4-H youth, parents, leaders and instructors are a part of the State 4H program and are required to follow the NJ 4-H Code of Conduct. Its nature demands that all of us involved in the event from the match directors and state coordinators to the young people, parents and coaches participating must put forward the best image of the 4-H Shooting Sports Program and the 4-H program generally. To protect that public image, use of alcoholic beverages and any use of tobacco products by minors is not permitted on the grounds of any NJ4HSSAC sponsored event. Violation of this policy is grounds for disqualification and dismissal from the event.

**Dress Code** - Participants are expected to dress appropriately for the events in which they participate. Club shirts are encouraged, but not required. Both young people and adults should wear attire appropriate for the weather while remaining modest and socially acceptable. Clothing with sexually suggestive wording or graphics; and alcohol or tobacco advertisement is not appropriate. Range officials will enforce dress codes, if required. All participants and coaches must remember that they may be photographed or interviewed for use by local or regional media. That means that each of us represents all of 4-H Shooting Sports. Let’s do all we can to make sure that is a positive image!

**Footwear Policy** - Unless explicitly stated as permitted in the appropriate NGB rules, participants are required to wear shoes that completely cover the foot. Examples of footwear **not** acceptable, but not limited to, include: open-toe shoes, sandals, clogs, crocks, flip-flops, and bare feet.

**Behavior and Sportsmanship** - All participants, coaches, and spectators will demonstrate the highest levels of sportsmanship, supporting the objectives and ideals promoted by the 4-H program in general and the 4-H Shooting Sports Program in particular. Participants or coaches will render aid and/or testimony if asked to do so by any match official. All participants, coaches, and observers are expected to conform to appropriate state

4-H Code of Conduct, expectations, or volunteer agreements, as well as to the National 4-H Shooting Sports Program Code of Conduct, not only to the letter, but in its intent.

**Knowledge of Rules and Procedures** – Where possible, each event in this program has been associated with the appropriate National Governing Body (NGB) for that event. Exceptions to NGB rules are noted in the “Synopsis”. Participants and coaches are responsible for reading the rules, understanding procedures used in each event, and complying with the rules and standards involved. Questions are encouraged to clarify areas of confusion or misunderstanding. Ignorance of the rules does not obviate their existence. Participants are responsible for knowing the rules of their events and complying with them. Learning the rules is part of the educational process for shooting sports participants.

## **CHALLENGES AND PROTESTS**

**Challenges** – Participants **only** may review their targets and challenge scoring. Once targets have been scored, they will be made available for review by the shooters firing on those targets for a period of thirty (30) minutes, unless otherwise posted. Upon completion of that time period, the right of challenge expires and scores will be deemed correct as posted.

**Challenge Fees** - Any challenge must be accompanied by a fee of \$1 per hole challenged. Serial challenges (following one challenge with another) are permitted, but once the shooter has reviewed and either challenged or accepted their scores, the right of review terminates. A jury (not including the original scorer) will review each challenge and render judgment to the challenger. An upheld challenge will result in changing the score to reflect the proper scoring and return of the challenge fee. Challenges sustained, i.e. scoring determined to be correct, will result in forfeiture of the fees, which will be deposited in NJ4HSSAC funds. No fee is required to point out mathematical errors or similar mechanical problems.

**Protests and Protest Fees** - Youth participants only (no coaches, parents or other adults) may protest:

- a) an injustice they feel has been done to them individually;
- b) conditions under which another competitor was permitted to fire, or
- c) equipment not meeting standards another competitor was permitted to use.

Protests and Challenges will be handled by the Scoring Committee, match coordinator and NJ4H Shooting Sports Coordinator during each match.

## **HELP NEEDED**

Each participating county is asked to supply help during the day of the match. A group of knowledgeable instructions will teach you how to do the jobs. Help is needed with the following:

- Gun Check (weighing the guns, testing of trigger pull and inspection of all equipment)
- Range Set up (Plan to arrive at 8:00 a.m. prior to each match)
- Scoring of Targets (Need at least one scoring judge from each club)
- Range Clean Up: (the match is not over until everything is cleaned up and put away)
- All participants are asked to help with this.
